

BOOPATHI M

Data & AI Intern @ Cloud Kinetics | B.Tech Artificial Intelligence & Data Science (2026)

Chennai / Salem, Tamil Nadu, India | +91 8825991927 | boopathi11std@gmail.com
LinkedIn: linkedin.com/in/Boopathi-M-60341b269 | Portfolio: boopathi-portfolio.vercel.app

PROFESSIONAL SUMMARY

Proactive AI & Data Science engineer with real-world experience as a **Data & AI Intern at Cloud Kinetics (Chennai)**. Specialized in Generative AI, Large Language Models (LLMs), AWS Bedrock, serverless architectures (AWS Lambda, S3), and Python. Demonstrated track record designing autonomous multi-step agents, computer vision diagnostic pipelines, and responsive web applications. Recipient of 3 NPTEL Elite certifications from IITs, committed to architecting scalable, enterprise-grade AI systems.

WORK EXPERIENCE & INTERSHIPS

Cloud Kinetics — Data & AI Intern (Chennai Office)

August 2026 – October 2026

- Selected for competitive Data & AI Internship at Cloud Kinetics Chennai office to engineer enterprise AI and cloud solutions.
- Developed Generative AI workflows and autonomous agents utilizing AWS Bedrock foundation models, prompt pipelines, and APIs.
- Built serverless compute pipelines with AWS Lambda, S3, and Python for automated document parsing, token tracking, and inference.
- Executed hands-on cloud technical exercises, benchmarking latency, hallucination rates, and multi-tenant cloud architecture.

Optimus Technocrates — Python & Data Analytics Intern

July 2024 – August 2024

- Completed immersive hands-on training in Python algorithmic logic building, data cleansing, and exploratory data analysis (EDA).
- Programmed modular Python software packages to automate data cleaning, statistical evaluation, and real-time report generation.

TECHNICAL PROJECTS

Amazon Bedrock Retail AI Agent | AWS Bedrock, AWS Lambda, Python 3.11, REST APIs, Next.js

- Built an autonomous retail agent utilizing AWS Bedrock foundation models and action groups for conversational commerce.
- Implemented Lambda Action Groups to query product catalogs, verify real-time stock levels, and dynamically process orders.
- Configured prompt safety guardrails and structured JSON parsing to guarantee reliable, hallucination-free retail recommendations.

Lumbar Spine Abnormality Detection | Python, OpenCV, TensorFlow/Keras, Image Preprocessing

- Developed a computer vision AI framework to detect spinal deformities and abnormalities from medical radiographic X-ray scans.
- Applied adaptive histogram equalization, morphological filtering, and contour segmentation to assist early diagnostic screening.

Synwell Care — Smart Wellness Monitoring Platform | Python, Machine Learning, React, MySQL

- Designed an intelligent health vitals monitoring web platform analyzing personal biomarkers and lifestyle data in real time.
- Engineered an interactive React dashboard with automated health risk alerts and lifestyle recommendations using ML predictive models.

TECHNICAL SKILLS

Generative AI & ML: AWS Bedrock, Large Language Models (LLMs), Prompt Engineering, Agentic Workflows, OpenCV, TensorFlow, Scikit-learn

Cloud & Backend: AWS (Bedrock, Lambda, S3, IAM), Cloud Architecture, REST APIs, Git, GitHub

Programming Languages: Python, Java, SQL (MySQL), TypeScript, JavaScript, HTML5/CSS3

Frameworks & Databases: Next.js 15, React 19, Spring Boot, Node.js, MySQL, MongoDB

Developer Tools: VS Code, Eclipse IDE, Jupyter Notebook, Postman

EDUCATION

B.Tech in Artificial Intelligence & Data Science | Muthayammal Engineering College (Autonomous), Anna Univ [CGPA: 7.8] (2022–2026)

Higher Secondary Certificate (HSC) | SRV Matric Higher Secondary School, Attur (State Board) [Score: 76%] (2020–2022)

Secondary School Leaving Certificate (SSLC) | SRV Matric Higher Secondary School, Attur (State Board) [Score: 86%] (2019–2020)

CERTIFICATIONS & ACHIEVEMENTS

- TATA Group & Forage:** Gen AI Powered Data Analytics Job Simulation
- NPTEL (IIT) Elite + Silver:** Foundation of Cloud IoT Edge ML
- NPTEL (IIT) Elite:** Distributed Systems
- NPTEL (IIT) Elite:** Fundamental Algorithms: Design and Analysis
- Conference Paper Presentation:** "Artificial Intelligence & Machine Learning in Healthcare", Selvam Engineering College
